

# Where bankers are **made**.

The Investment Banking School (TIBS) equips finance aspirants with the practical, deal-tested skills that real banking floors demand — with hundred percent placement assistance.

**INVESTMENT BANKING CERTIFICATE PROGRAM · IBCP**

## PROGRAM AT A GLANCE

**8 Core Modules**

**Live + Recorded Classes**

**Small Batch Cohorts**

**Capstone Deal Project**

**IBCP Certification**

## 01 — ABOUT TIBS

### Built by bankers, for future bankers

TIBS was founded to close the gap between classroom finance and the trading floor. Every module is designed and taught by practitioners who have built models, run diligence, and sat in live deal rooms — so what you learn here is what you will actually be asked to do on the job. The IBCP is a practitioner-led certificate that takes you from financial statements to a fully built valuation and deal pitch.

## 02 — WHY TIBS

### A program built around outcomes and guaranteed placements !

#### Practitioner faculty

Learn from professionals with real M&A, equity research, and corporate finance experience.

#### Deal-based learning

Build models and valuations around live, real-company case studies — not generic templates.

#### Recognized certification

Graduate with the IBCP credential and a portfolio-ready capstone deal deck.

#### Career mentorship

One-on-one guidance on resumes, interviews, and placement into finance roles.

#### Small batch sizes

Focused cohorts that keep the learning personal, not lost in a crowded lecture hall.

#### Flexible format

Live instructor-led sessions with recordings, so you never fall behind the cohort.

## 03 — WHO SHOULD JOIN

### Built for every stage of the journey

**Students & graduates** in commerce, economics, finance, or engineering aiming for a career in banking.

**Working professionals** looking to transition into investment banking, equity research, or corporate finance.

**CA / CFA / MBA aspirants** who want hands-on modeling and valuation skills alongside their credential.

# Inside the IBCP

Eight core modules that take you from reading a balance sheet to building a full valuation and deal pitch, ending in a capstone project you can show employers — plus ongoing workshops and electives added each cohort.

- 01 Financial Accounting & Statement Analysis**  
Read and interpret the three core statements like an analyst.
- 03 Valuation Techniques**  
DCF, comparable companies, and precedent transaction analysis.
- 05 Leveraged Buyouts**  
Build LBO models and evaluate private equity return scenarios.
- 07 Advanced Excel & VBA**  
Speed, formatting, and automation skills used on the desk daily.

- 02 Financial Modelling**  
Build integrated three-statement models from scratch in Excel.
- 04 Mergers & Acquisitions**  
Deal structuring, accretion/dilution, and synergy analysis.
- 06 Equity Research & Pitch Books**  
Turn analysis into a client-ready research note and pitch deck.
- 08 Capstone Deal Simulation**  
Present a full deal — from thesis to valuation — to a faculty panel.

...plus, interview preparation, sector deep-dives (Tier 1 Banks, hedge funds, industrials), guest banker sessions, and more — refreshed every cohort.

| FORMAT          | LEVEL               | CERTIFICATION | COHORT SIZE   |
|-----------------|---------------------|---------------|---------------|
| Live + Recorded | Beginner → Advanced | IBCP, TIBS    | Small Batches |
